Three custom-machined metal parts, likely aluminum, are shown in a row. The first two parts have a polished, reflective finish, while the third part has a bright yellow painted finish. They are all cylindrical with a flange and a central hole.

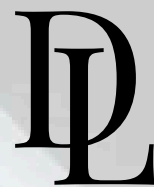

The image displays three common LED spotlight models:

- GU5.3:** A spotlight with a wide, shallow, dome-shaped lens. The top-down view shows a circular lens with a central light source.
- MR16:** A spotlight with a wider, more rounded dome-shaped lens. The top-down view shows a circular lens with a central light source.
- GU10:** A spotlight with a narrower, more conical lens. The top-down view shows a circular lens with a central light source.

Power	7W	Voltage	110V/220V
Beam angle	24°	Frequency	50-60HZ
Interface	GU10/MR16/GU5.3	Color tem	Cold White/Warm White
Material	PC+Aluminum	Lifespan	Over 10000 Hours
